To Whom It May Concern

**Re: Planning Proposal to Amend Minimum Lot Size
at 631 Bells Line of Road - Kurrajong**

Thank you for the opportunity to provide advice on the above matter. This is a response from NSW Department of Industry – Geological Survey of New South Wales (GSNSW).

Specific Issues

The GSNSW has no resource issues to raise in regards to the proposal as there are no current mineral, coal or petroleum titles over the site, nor any identified regional or state significant resources covering the subject site

Geoscience Information Services

The GSNSW has a range of online data available on line through the following website address:

<http://www.resources.nsw.gov.au/geological/online-services>

This site hosts a range of data to enable research into exploration, land use and general geoscience topics. Additionally, the location of exploration and mining titles in NSW may be accessed by the general public using the following online utilities:

1. **MinView** allows on-line interactive display and query of exploration tenement information and geoscience data. It allows spatial selection, display and download of geological coverages, mineral deposits and mine locations, geophysical survey boundaries, drillhole locations, historical and current exploration title boundaries and other spatial datasets of New South Wales. This online service is available at:
<http://www.resources.nsw.gov.au/geological/online-services/minview>
2. **NSW Titles** enables the public to access and view frequently updated titles mapping information across NSW. This online service is available at:
<http://nswtitles.minerals.nsw.gov.au/nswtitles/>

Queries regarding the above information, and future requests for advice in relation to this matter, should be directed to the GSNSW Land Use team at landuse.minerals@industry.nsw.gov.au.

Yours sincerely

Cressida Gilmore
Team Leader - Land Use
