MAYOR'S FOREWORD

I am proud to introduce Hawkesbury City Council's Disability Inclusion Action Plan 2023–2026. The Plan outlines Council's commitment to improving access and inclusion across our organisation and the Hawkesbury and aligns with the Community Strategic Plan 2022–2036.

Within this plan is the framework that Council will follow to realise the community's stated vision for the Hawkesbury, being:

We see the Hawkesbury as a vibrant and collaborative community living in harmony with our history and environment, whilst valuing our diversity, striving for innovation, a strong economy and retaining our lifestyle and identity.

This Plan reaffirms Council's long-standing commitment to working with the community to address and overcome the physical, attitudinal, and social barriers that impact access and inclusion for people with a disability, and in doing so, will create a truly inclusive Hawkesbury.

More than 200 community members and 15 support organisations contributed to the development of this Plan. The Plan has also benefited from the insight of a Working Group – members of our community who have a lived experience of disability. Council thanks everyone for their valuable contribution.

Council is strongly committed to the principles of the NSW Disability Inclusion Plan, the United Nations Convention on the Rights of Persons with Disabilities (UNCRPD) and the National Disability Strategy.

The Hawkesbury Disability Inclusion Action Plan 2023–2026 is aligned with the guiding principles of the UNCRPD including:

- Full and effective participation and inclusion in society.
- Respect for difference and acceptance of people with disabilities as part of human diversity and humanity.
- Equality of opportunity.
- Accessibility.
- Non-discrimination.

This is Council's third plan focusing on access and inclusion. It is very pleasing that the previous Plan successfully delivered a number of important achievements, including establishment of a specific Youth and Inclusion Role, implementation of programs to support local businesses to improve accessibility and improved access to facilities and services through assistive reading technology and increased accessible amenities in public spaces.

Council recognises there is still much work to be done to make the Hawkesbury a truly accessible and inclusive community. We look forward to continuing this important work with the community in delivering this new Plan.

INTRODUCTION

Hawkesbury City Council is committed to fostering a community that is inclusive for all people who live, work, and visit our region. This means ensuring all people with disabilities and diverse needs have every opportunity to fully connect, participate and enjoy the community, social and business life of the Hawkesbury region.

Our city is home to over 67,000 residents living in both urban and rural areas across the region, of which 11,300 people identify as living with disability. As a Council we recognise that throughout Australia and our region, there are still barriers to achieving equitable access to social, civic or employment opportunities for people with disability. Working to remove these barriers is not only essential to improving the lives of people with disabilities but also makes our community stronger and more connected.

The 2023 – 2026 Hawkesbury Disability Inclusion Action Plan (DIAP) is our third Access and Inclusion Plan. The new Plan draws upon the learnings, challenges and successes from the last nine years, and provides a clear framework and pathway forward.

We would like to thank the local community for their openness, insights, and invaluable contribution to the development of this Plan. This Plan has been developed and informed by the local Hawkesbury community, in partnership with The Hawkesbury Disability Inclusion Action Plan Working Group and local community services.

with disabilities an

DISABILITY

The NSW Disability Inclusion Act 2014 defines disability as:

The long-term physical, mental, intellectual, or sensory impairment which in interaction with various barriers may hinder the full and effective participation in society on an equal basis with others. There are many kinds of disability, which can be the result of accidents, illness, or genetics. A disability may affect mobility, ability to learn or ability to communicate easily, and some people may have more than one. A disability may be temporary or permanent, total, or partial, lifelong, or acquired, visible, or invisible. Although some people are born with disability, many people acquire disability.

ACCESS

Refers to any outcome that is achieved by the removal of 'barriers' or obstacles that may impede an individual's rights to engage in a chosen activity in a manner that is equitable and dignified. 'Barriers' can include obstacles in the built environment as well as communication or attitudinal obstacles in the social environment.

INCLUSION

Inclusion is the process whereby every person (irrespective of age, disability, gender, religion, sexual preference, or nationality) who wishes to, can access, and participate fully in all aspects of an activity or service in the same way as any other member of the community. Inclusion requires time, space, effort, and resources, but it creates a society which is fairer and more cohesive.

HOW WAS THE PLAN DEVELOPED?

REVIEW OF PREVIOUS DIAP

A review of the previous Disability Inclusion Action Plan was undertaken in accordance with the Department of Communities and Justice DIAP guidelines in 2022. The review identified learnings and challenges including COVID-19 and multiple major disaster events during the implementation period and provided insights that have informed the development of the new Plan. The Plan was reviewed by stakeholders within the Council and led by the Community Planning and Partnerships team.

ESTABLISHMENT OF THE DISABILITY INCLUSION ACTION PLAN WORKING GROUP

Council engaged a Disability Inclusion Action Plan Working Group in mid 2023 to inform the design, development, and implementation of the new Disability Inclusion Action Plan. The Working Group comprises of representatives from the local community with lived experience of disability, local service providers and stakeholders. The Working Group provide direct advice to Council's Youth and Inclusion Officer on disability inclusion practices and will continue to provide regular oversight of the delivery of the Plan throughout its implementation period. The Working Group will welcome new members and looks forward to an ongoing diversity of input.

COMMUNITY CONVERSATIONS

Council conducted a series of in-person consultations and focus groups with the community from July to September 2023. We heard from a total of 204 individuals and 15 support organisations about what mattered most to them, what is currently working, and how Council can improve accessibility and inclusion for people with disability in our region.

In addition to the in-person consultations, an online survey was held for the community to provide feedback, to which a total of 31 responses were received. Of those respondents 57% identified as a person with disability, 14% were carers, 14% were support workers and 7% were both a carer and support worker.

Throughout 2023, Council's Community Planning and Partnerships Team engaged with the local community, including delivery of Community Hubs in four regional areas. Council provides sector support through its interagency Hawkesbury Connect and Hawkesbury Youth Interagency to community organisations and services across the region, involvement in community events, expos and programs, delivery of training and workshops with local community and sponsorship of community-led initiatives. The knowledge and experience shared with Council through this engagement has also informed the development of this Plan.
