# **Hawkesbury City Council Adopted Management Plan 2011-2012**

## **Part 3 – Revenue Pricing Policy (with Fees and Charges)**

## Hawkesbury City Council

Address: 366 George Street  
Windsor NSW 2756

Mailing Address: PO BOX 146  
WINDSOR NSW 2756

Phone: (02) 4560 4444

Fax: (02) 4560 4400

E-mail: [council@hawkesbury.nsw.gov.au](mailto:council@hawkesbury.nsw.gov.au)

Office hours: Monday to Friday 8.30 am - 5.00 pm

Council Website: [www.hawkesbury.nsw.gov.au](http://www.hawkesbury.nsw.gov.au)

## About this Plan

Management or Corporate Planning is a process that provides a framework for an organisation to achieve its strategic goals through effectively and efficiently using its resources. The process of developing the Management Plan, implementing the Plan and reporting on its implementation forms a continuous cycle.

The Management Plan is divided into three parts:

1. Strategic and Operational Plan
2. Budget Estimates
3. Revenue Pricing Policy (with Fees & Charges)

The Revenue Pricing Policy is a list of Council's fees and charges for 2011/2012 including all areas that support the production of Council's income from which Council provides its services. The revenue categories include rates, annual charges for services, fees for services, Federal and State Government grants, borrowing and earnings from investments and entrepreneurial activities.

## INTRODUCTION

Local Government is the tier of Government which is closest to the people. Hawkesbury City Council exists to provide a wide range of services for the benefit of its local community. Council has to operate in a complex, legislative, economic and social framework, and with the participation of the community, services and facilities are provided in an efficient, effective and a businesslike manner.

The businesslike approach in the provision of these services and facilities, takes into account several major characteristics, including:

- A large part of Council's revenue comes from ratepayers who expect a certain level and quality of service for their contribution by rates.
- Council's pricing policies and budgets are developed by representatives of the community.
- Council receives grants from other spheres of Government, which may prescribe policies and pricing practices.
- Commonwealth and State legislation is often prescriptive in relation to certain areas of the power of Local Government.

The traditional role of councils to provide physical and property based services has evolved into a far more complex one, which involves the provision of a wide range of physical, social and recreational services and facilities. Communities are demanding both a wider range and higher quality of service. Operating in an economic environment of tight fiscal and financial constraint, the availability of additional funds from other levels of government has been restricted.

It is within this context that the Revenue Pricing Policy is formulated to form part of the Management Plan for the 2011/2012 Financial Year.

## Types of Revenue

The sources of funds to enable Council to carry out its works and services and provision of facilities are from the following revenue categories:

- Rates;
- Annual charges for services;
- Fees for services;
- Federal and State Government grants;
- Borrowings; and
- Earnings from investments and entrepreneurial activities.

Critical to the development of the Revenue Pricing Policy is that the principles of efficiency, effectiveness and equity are demonstrated.

**Efficiency** generally means ensuring that resources are devoted to the most valuable ends as determined by Council, whilst using as few resources as possible. It generally relates to the cost at which services and facilities desired by the community are delivered or provided.

**Effectiveness** relates to the satisfaction of stated objectives so that outcomes of decisions and the needs and demands of consumers are taken into consideration. Effectiveness is clearly demonstrated by the relative service standards or qualities to the satisfaction of a particular group's needs.

**Equity** means ensuring that services are provided to those who need them, even though they may be unable to pay for the particular service.

This document provides pricing policies for rates, annual charges for services and fees for specific services provided by Council.

# RATES AND CHARGES – 2011/2012

## Current Rating Structure

### Ordinary Rates

Council's current rating structure consists of an 'ad valorem' amount in accordance with Section 497 of the Local Government Act 1993 (the Act) subject to minimum amounts in accordance with Section 548 of the Act. The Act also provides for all rateable properties to be categorised into one of four categories of ordinary rates as follows:

- Farmland Category
- Mining Category
- Residential Category
- Business Category

All properties are levied at the same general rate unless the dominant usage of the land is a farming activity which meets the criteria specified in Section 515 of the Act. For 2011/2012, the farmland category is assessed at 75% of the residential rate.

The criteria in determining the categorisation of land is as follows:

1. **Farmland** – includes any parcel of rateable land valued as one assessment and the dominant use of the land is for farming. The farming activity must have a significant and substantial commercial purpose or character and must be engaged in for the purpose of profit on a continuous or repetitive basis (whether or not a profit is actually made).

Properties which meet these criteria are categorised as "Farmland" and are levied at a lower rate in the dollar which for 2011/2012 is 75% of the residential and business rate.

2. **Residential** – includes any rateable parcel of land valued as one assessment and:

- a. the dominant use is for residential accommodation; or
- b. if vacant land, is zoned or otherwise designated for use for residential purposes under an environmental planning instrument; or
- c. is rural residential land

3. **Mining** – includes any rateable parcel of land valued as one assessment with the dominant use being for a coal mine or metalliferous mine.

There are no properties currently categorised as "Mining".

4. **Business** – is rateable land that cannot be classified as farmland, residential or mining.

Land that is categorised as "Business" is levied at the business rate. For 2011/2012, the business rate in the dollar is the same as the residential rate.

Additionally, each of these categories can be divided into sub-categories, which are determined on the basis of:

- For the farmland category, according to the intensity of land use or economic factors affecting the land.
- For the residential category, whether the land is rural residential land or within a centre of population.
- For the business category, whether the land is located within a centre of activity.

## Rate Pegging

The NSW Government introduced rate pegging in 1987. Rate pegging limits the amount that Council can increase its rate revenue from one year to the next by a specified figure. In past years, this limit was determined by the Minister for Local Government however, from the 2011/2012 rating year the limit is set by the Independent Pricing and Regulatory Tribunal (IPART).

IPART has determined the rate pegging amount for 2011/2012 to be 2.8%. Revenue figures quoted for general rates are prepared on the basis of this percentage increase plus an allowable increase to recover abandonments in line with the relevant provisions of the Act.

General income comprises income from ordinary rates and special rates. It does not include income from Waste Management service charges, Windsor Sewer Scheme service charges or Sullage service charges.

## Valuations

Rates are assessed on a rate in the dollar as a product of the land value supplied by the Valuer General. The Valuation of Land Act requires the Council to assess the rates on the most recent values provided by the Valuer General. A re-valuation of the Hawkesbury area took place in 2008 and these valuations were utilised for the first time for rating purposes in 2010/2011 and will be used again in 2011/2012.

## Rates in the Dollar 2011/2012

The following table provides details of the ad valorem rate in the dollar and minimum rate for 2011/2012 using a rate pegging of 2.8% plus an allowable increase to recover abandonments in line with the relevant provisions of the Act.

The adopted Minimum Rate and Rate in the \$ for rating categories shown below, incorporates valuation changes (subdivisions, objections, etc) up to and including the Council meeting held on the 21 June 2011.

Rate Category	Rate
• Residential Rate	0.325064c/\$
• Business Rate	0.325064 c/\$
• Farmland Rate	0.243798 c/\$
• Minimum for all categories	\$469.00

The following table provides a summary of the estimated number of rateable properties within each of the rating categories, the rate in the dollar applicable to the category, the number of properties within the category to be rated at the minimum amount and the estimated rate revenue for 2011/2012.

Rate Description	Type	Rate	No. of Properties	Amount
Residential	Levy	0.325064c/\$	19,676	\$20,900,379
Residential	Minimum	\$469.00	2,772	\$1,300,068
Business	Levy	0.325064c/\$	1,156	\$2,380,023
Business	Minimum	\$469.00	352	\$165,088
Farmland	Levy	0.243798c/\$	583	\$1,268,071
Farmland	Minimum	\$469.00	18	\$8,442
			<b>Total</b>	<b>\$26,022,071</b>

### Notes

Variations will occur throughout the budget year between the estimated rate revenue indicated above and the actual income received. Reasons for variations between estimated income and actual income received include:

- Previously non-rateable properties becoming rateable during the year.
- Properties being withheld from rating, pending revised valuation particulars from the Valuer General's Office. This occurs when properties are subdivided and new valuation particulars are requested for the newly created lots. This usually results in an increase in the valuation base for the following year.
- Properties being rated for previous years upon receipt of new valuation particulars. There is a time delay associated with requesting new valuation particulars. This may result in some properties not being rated for a particular year until subsequent rating periods. This artificially inflates the rating revenue received for the year the rates are actually levied.
- Properties that are subdivided will have the new valuations used for rating from 1 July the following year from when the Plan was registered. This is also the case when part of a property is sold whereby the new valuations are to be used from 1 July the following year from when the sale took place.
- Any change in rating category is to take effect from the following quarter from when the application was received, should that application be successful.

## Special Rates

In addition to the Ordinary Rates, the Local Government Act makes provision for a Special Rate. Special rates may be considered by Council if it wished to finance a project that will benefit either the whole of the City or part of the City. A project may be comprised of works, services, facilities or activities.

A special rate can be levied on any rateable land, which in the Council's opinion, benefits or will benefit from the project in question; or contributes to the need for the project; or has access to the project. Council is free to levy different special rates for various projects, or for similar projects in different parts of its area.

When setting special rates, it is important that Council is able to define with some precision how the project will affect what land. The rate must then be applied consistently to the affected assessments. All land which benefits from the project must be rated the special rate.

A special rate may be made for or towards meeting the cost of any existing or proposed project within any part or the whole of the council's area. The amount of the special rate is determined according to the assessment of the relationship between the estimated cost of the activity and the degree of benefit afforded to the ratepayer by providing the activity.

Like an ordinary rate, a special rate is based on the land value of rateable properties and may consist of an ad valorem rate (which may be subject to a minimum rate) or a base amount to which an ad valorem rate is added.

If the purpose of any income to be levied by a special rate is not for water supply, sewerage charges or domestic waste management services, then the income raised will form part of Council's General Income. This income will need to form part of Council's permissible general income or require Ministerial approval if the income exceeds the permissible limit.

Council is not proposing any special rates for 2011/2012.

## Annual Charges (Section 501)

In addition to ordinary rates and special rates, Council may levy an annual charge for any of the following services:

- Water supply services;
- Sewerage services;
- Drainage services;
- Waste management services (excluding domestic waste services); and
- Any services prescribed by the regulations.

## Waste Management

Domestic Waste Management Services generally relates to what has been known as domestic garbage. Waste Management Services relates to trade waste, business waste or direct disposal of waste at Council's Waste Depot site. Domestic Recycling Services is currently carried out by contract for the collection service. Other Waste Services would relate to the Sullage, Sewerage and any other prescribed service.

Provisions of the Local Government Act 1993 (the Act) and the guidelines from the Division of Local Government encourages the user pays revenue raising method. They also require that councils separately account for each of the waste disposal methods with appropriate revenue sources being charged in accordance with the relative costs relating to that service. Council separately accounts for the income and expenditure for both the collection and disposal of garbage, as well as independently accounting for sullage and sewerage services.

There are two forms of charging for waste management services, being an annual charge or a user charge based upon the volume of waste disposed of or collected. Council's experience in relation to the waste

management services would indicate that a method of charging by volume does not support an effective waste management service. The Revenue Pricing Policy for waste management services is therefore based upon the setting of annual charges for each service.

Accountability for revenue raising for the Domestic Waste Management Service provided by Council is set down in the Act, limiting revenue to reasonable costs that are required to provide the service.

For 2011/2012, the Department of Environment, Climate Change and Water (DECCW) has increased the Section 88 waste levy from \$65.30 to \$76.80 per tonne, representing an increase of \$11.50 per tonne or 17.6%. The DECCW increase has been incorporated into the various Waste Management charges for 2011/2012.

The charge for the Weekly Domestic Waste Management Charge 240L service will increase to \$373.30 (2010/2011 - \$335.25), which is made up of a \$305.97 component for Domestic Waste plus a \$49.39 component for the Recycling Service and \$17.94 for the annual Kerbside pickup. The charge for the Weekly Domestic Waste Management Charge 120L bin service will increase to \$236.14 (2010/2011 - \$205.85), which is made up of a \$168.81 component for Domestic Waste plus a \$49.39 component for the Recycling Service and \$17.94 for the annual Kerbside pickup.

As at the date of printing, 6,568 of the total 22,450 domestic services within the City are utilising a 120 litre waste bin. This represents approximately 29.26% of the total services.

Council will continue to provide a fortnightly waste management service to residents in certain outlying areas of the City. This service was commenced in the 1995/1996 financial year. The recycling component applies equally to properties on both weekly and fortnightly collection, as the recycling pickup is a fortnightly service.

The Fortnightly Domestic Waste Management Charge 240L will increase to \$236.14 (2010/2011 - \$205.85), which is made up of a \$168.81 component for Domestic Waste plus a \$49.39 component for the Recycling Service and \$17.94 for the annual Kerbside pickup. The Fortnightly Domestic Waste Management Charge 120L will increase to \$165.81 (2010/2011 - \$139.50) which is made up of a \$98.48 component for Domestic Waste plus a \$49.39 component for the Recycling Service and \$17.94 for the annual Kerbside pickup.

Since the introduction of the Act, Council is required to levy a Domestic Waste Management Service availability charge on properties that do not utilise the service but are located within the service area, to reflect the cost of the availability of the service to those properties. Based on the 2011/2012 estimates and the considerations noted above, the Weekly Domestic Waste Availability Charge will increase to \$107.90 (2010/2011 - \$101.80) for those in the weekly collection area and the Fortnightly Domestic Waste Availability Charge to \$53.95 (2010/2011 - \$50.90) for those in the fortnightly collection area.

Under the Act, properties identified as being used predominantly for business purposes, are required to be levied a Waste Management Charge as distinct from the Domestic Waste Service. Since 1999/2000 the Waste Management Service has been extended to include non-domestic properties as part of the recycling scheme.

If the business activity requires a trade waste collection service, then that business organisation negotiates with private contractors to supply the service directly, Council is not a party to the agreement.

The following table illustrates the estimated revenue for 2011/2012 from Waste Management charges

Charge 2010/2011	Description	No. of Properties	Charge 2011/2012	% Increase	Revenue
	<b>DOMESTIC</b>				
\$335.25	240 litre bin - Weekly	15,437	\$355.36	6.00%	\$5,485,692
\$205.85	120 litre bin - Weekly	6,521	\$218.20	6.00%	\$1,422,882
\$205.85	240 litre bin - Fortnightly	445	\$218.20	6.00%	\$97,099
\$139.50	120 litre bin - Fortnightly	47	\$147.87	6.00%	\$6,950
\$101.80	Availability - Weekly	885	\$107.90	6.00%	\$95,492
\$50.90	Availability - Fortnightly	124	\$53.95	6.00%	\$6,690
	<b>BUSINESS</b>				
\$376.85	240 litre bin - Weekly	1,675	\$430.36	14.20%	\$720,853
\$230.60	120 litre bin - Weekly	149	\$263.34	14.20%	\$39,238
	<b>Totals</b>	<b>25,283</b>			<b>\$7,874,895</b>

## Kerbside Bulk Waste Collection

In addition to the bin charges above, a kerbside bulk collection service charge of \$17.94 per annum applies to the properties subject to the Domestic Waste Charge.

## Sewerage Fund

Council owned and operated the Windsor Sewerage Scheme from the date of the original construction to the end of 1992. The Windsor Sewerage Scheme provides reticulated sewerage services to the general areas of:

- Bligh Park;
- Clarendon;
- McGraths Hill and Mulgrave Industrial Area;
- Pitt Town;
- South Windsor and South Windsor Industrial Area;
- Windsor;
- Windsor Downs; and
- Other minor extensions

From 1 January 1993, the power to raise the necessary revenue for the operation and management of the Windsor Sewerage Scheme was transferred to Sydney Water Corporation (Sydney Water Board) with Council still continuing to operate the Treatment Plants and equipment. Rates and charges were then levied by Sydney Water, from the property owners, and paid to Council for the costs of operation. Further State Government legislation has transpired that enabled Hawkesbury City Council to resume the raising of revenue from the property owners in the benefit areas to continue to provide the sewerage services. This has taken place since 1 July 1996 and will continue for the 2011/2012 financial year and beyond.

An annual charge is levied for sewerage charges in accordance with the provisions of the Act. Section 501(1) of the Act allows Council to make and levy a rate for sewerage services.

### Residential Sewer Rate

Residential premises, whether by way of mixed development, single dwelling, dual occupancy, strata or non-strata units/flats are not subject to usage categories. The residential sewer rate is calculated on an equity basis and applied to each service.

### **Business Sewer Rate**

Businesses pay a sewer rate based on usage. Five categories have been derived for volume discharges ranging from less than 1,000 litres per day (Category 1) to greater than 20,000 litres per day (Category 5). For details of volume discharges and charges see Tables in this section (Sewerage Fund).

Where industrial or commercial premises contain strata or non-strata units constructed under current planning laws these units are self contained and considered separate entities; that is each unit contains its own amenities (toilets, showers, sink, canteen etc). A sewer rate is calculated based on volume discharged to the sewerage system and applied to each unit.

Where industrial or commercial premises contain non-strata units constructed under older planning laws and may not be self contained, that is where several units share amenities; these units can be aggregated to a single annual charge based on a combined volume discharge to the sewerage system.

The sewerage charges for the 2011/2012 financial year have been increased in line with budgetary calculations.

### **Residential Charges**

- Residential Properties..... \$542.90
- Unconnected Residential..... \$361.55
- Pensioner Concession.....(\$271.45)

### **Business Charges**

- Unconnected Business .....\$364.30
- Business - Category 1.....\$631.90
- Business - Category 2.....\$3,168.40
- Business - Category 3.....\$6,311.55
- Business - Category 4.....\$12,584.65
- Business - Category 5.....\$12,584.65

The Business Categories are proposed on the volumes of waste generated. The categories for 2011/2012 will remain the same as the 2010/2011 categories. The Business Categories for 2011/2012 are as follows:

- Volume Category 1 ..... < 1,000 litres per day
- Volume Category 2 ..... 1,001 - 5,000 litres per day
- Volume Category 3 ..... 5,001 - 10,000 litres per day
- Volume Category 4 ..... 10,001 - 20,000 litres per day
- Volume Category 5 ..... > 20,000 litres per day

Additionally, a Trade Waste Excess Volume Charge applies to the Category 5 discharges. Those businesses with volumes exceeding 20,000 litres per day (Category 5) will attract the excess volume charge for each kilolitre in excess of 20KL per day. For 2011/2012, the Trade Waste Excess Volume Charge will increase to \$2.27 per kilolitre.

In addition to the excess volume charge, a trade waste mass loading charge may be levied, based on the strength of pollutants in the waste stream in Categories 2, 3, 4 and 5. The mass load will be calculated on

the entire volume discharge, not just the excess, and charged according to pre-determined rates. Mass loading content may include Biochemical Oxygen Demand (BOD); Suspended Solids, Total Grease and Oil and other pollutant groups.

Volumes of waste generated consistently above the initial assessed categorisation will result in a review of the nominated category. An appeal mechanism will also enable the category to be reviewed when a property owner feels the assessed volume is too high.

Properties are charged the Unconnected Annual Charge on a similar basis to availability charges for Domestic Waste Management. Whilst there may not be discharge of waste into the sewer there is a substantial cost in providing and maintaining the infrastructure to the property and an attributable annual charge is proposed. This philosophy is consistent with the intent of the Local Government Act, 1993, that proposes the recovery of costs from vacant properties where the service is available.

Provided below is the estimated income to be raised from the 2011/2012 sewer charges:

Charge 2010/11	Type of Service	Services	Charge 2011/12	% Inc.	Revenue
<b>RESIDENTIAL</b>					
\$494	Residential Connected	6,774	\$543	9.90%	\$3,677,605
\$329	Residential Unconnected	113	\$362	9.90%	\$40,855
(\$247)	Pensioner Concession	780	(\$271)	9.90%	(\$211,731)
\$48	Pensioner Subsidy	780	\$48	0.00%	\$37,541
<b>BUSINESS</b>					
\$575	Category 1 - (< 1,000 litres per day)	781	\$632	9.90%	\$493,514
\$2,883	Category 2 - (1,001 to 5,000 litres per day)	64	\$3,168	9.90%	\$202,778
\$5,743	Category 3 - (5,001 to 10,000 litres per day)	6	\$6,312	9.90%	\$37,869
\$11,451	Category 4 - (10,001 to 20,000 litres per day)	5	\$12,585	9.90%	\$62,923
\$11,451	Category 5 - (> 20,000 litres per day) *	4	\$12,585	9.90%	\$50,339
\$331	Business - Unconnected	60	\$364	10.14%	\$21,858
<b>Total</b>		<b>7,807</b>			<b>\$4,413,551</b>

\* Plus Trade Waste Excess Volume Charge of \$2.27 per kilolitre for Category 5 properties.

In addition, a trade waste mass loading charge may be levied based on the strength of pollutants where determined.

## Sullage Service

A sullage pump-out service is generally provided to properties that are not serviced by Sydney Water or the Windsor Sewer Scheme and do not have an on-site sewerage management facility. At the time of preparing this report there were 1,383 residential properties that utilise Council's fortnightly sullage pump-out service, and a further 20 residential properties are on a weekly collection service. Residential properties receive an annual charge for this service, which appears on the rate notice. Additionally, there are approximately 60 commercial properties that are serviced as required and invoiced in accordance with the quantity removed.

The charges for the sullage service are calculated on the basis of the estimated costs to provide the service. The costs include the contract payments and any overheads applicable in administering the service. For

2011/2012, the anticipated costs also include the funding of the sullage service pensioner rebate scheme. These charges have remained unchanged since 2008/2009.

It should also be noted that Sydney Water has been extending its Sewerage Scheme into the Glossodia/Freemans Reach/Wilberforce areas. During 2010/2011, 534 properties connected to the Sydney Water Scheme.

In order to achieve the estimated costs in providing the sullage service, the 2011/2012 charges have been calculated as follows:

#### **Residential**

- Residential fortnightly service ..... \$1,245.00
- Residential weekly service..... \$2,490.00
- Extra Services..... \$86.00
- Emergency Services..... \$108.00
- Pensioner Concession..... (\$622.50)

#### **Business**

- Commercial rate per 1000 litres..... \$15.50
- Commercial Service - Not scheduled . . . . . \$86.00 plus litreage rate

Since 2002/2003, septic tank desludges are no longer exclusively performed by Council's sullage contractor. Ratepayers may choose any waste collector that is licensed with the EPA. Consequently the administration and billing for desludge services is no longer performed by Council staff.

The following table depicts the estimated revenue for 2011/2012 from the sullage services:

Charge 2010/2011	Type of Service	Services	Charge 2011/2012	% Increase	Revenue
	<b>RESIDENTIAL</b>				
\$1,245.00	Fortnightly Residential	1,383	\$1,245.00	0%	\$1,721,835.00
\$2,490.00	Weekly Residential	20	\$2,490.00	0%	\$49,800
\$86.00	Extra Services	288	\$86.00	0%	\$24,768
\$108.00	Emergency Services	171	\$108.00	0%	\$18,468
(\$622.50)	Pensioner Rebates	131	(\$622.50)	0%	(\$81,547.50)
	<b>BUSINESS</b>				
\$15.50	Commercial per 1000 litre	10,656	\$15.50	0%	\$165,158
	<b>TOTAL</b>				<b>\$1,898,481.50</b>

## **Pensioner Concessions**

Concession on the rates and charges levied are available to eligible pensioners. Council has in excess of 2,800 eligible pensioners who receive concessions on their annual rates and charges. Different concessions are available for the varying charges.

Council offers a number of rating concessions to pensioners over and above the mandatory concessions. No State Government subsidy is received against these additional concessions.

In September 2007 the Federal Government amended the asset requirements for pensioner applications which have resulted in an increase in the number of pensioners eligible for a pensioner rebate which in turn has increased the cost in this area to Council.

Pensioner Rebates are only available to eligible pensioners from 1 July in the rating year in which they apply (or from the applicable quarter in the same year).

### ***Ordinary Rates and Domestic Waste Management Service Charge***

The Act provides for pension rebates of up to 50% of the aggregated ordinary rates and domestic waste management service charges, to a maximum of \$250.00.

Under the State's mandatory Pensioner Concession Scheme, the State Government reimburses Council 55% (up to \$137.50 per property) of the rates and charges written off under the provisions of the Act. Council funds the remaining 45% (up to \$112.50).

### ***Sewerage Services***

A concession is available to eligible pensioners who are subject to the residential connected charge under the Windsor Sewerage Scheme. The rebate granted represents 50% of the annual charge for a connected residential service.

The rebate for the 2011/2012 rating year will be \$271.45 per annum. The mandatory concession in respect to Sewer Charges is \$87.50 of which the State Government provides a reimbursement to Council of 55% (\$48.13). This amount has remained unchanged since 1989. Council funds the difference, which for 2011/2012 will be \$223.32 per property.

### ***Sullage Services***

Council provides eligible pensioners receiving a sullage pump-out service with a pensioner subsidy additional to that received for rates and garbage. This subsidy is not available to pensioners who have non-eligible adult residents living at their property.

This rebate is fully funded by Council. The State Government provides no assistance towards pensioners on the sullage service.

The pensioner concession amount for 2011/2012 will be \$622.50 which represents 50% of the charge for 2011/2012.

## RATES AND ANNUAL CHARGES

2010/2011

2011/2012

### Rates

\$0.316	Residential Rate in the Dollar	\$0.325064

\$108.00	Residential - Emergency Service	\$108.00
(\$622.50)	Pensioner Rebate	(\$622.50)
\$15.50	Commercial Charge per 1000 litres	\$15.50
\$86.00	Commercial Service - Not Scheduled (plus litreage)	\$86.00

## FEES EXPLANATORY NOTES

Council may charge and recover fees for any service it provides. This is exclusive of annual charges for services provided on an annual basis.

The Revenue Pricing Policy for fees has been determined on two principle bases, the level of community benefit and the level of cost recovery. The attached fees and charges schedule refers to both of these pricing principles.

### Community **BENEFIT** (Note 1)

The Pricing Policy decisions relating to **community benefit** have been categorised as follows:

- A). Public good
- B). Private good
- C). Subsidised public good
- D). Statutory fee

A **public good** is one that provides broad and often unquantifiable benefit to the community.

In contrast, a **private good** is one that provides benefits to particular individuals or corporations making a contribution to the individual income, welfare or profits without any broader benefits to the community.

A **subsidised public good** is one that there is a level of both private and community good to be gained by the service provided.

Services provided by Council for which there is a **statutory fee** or an imposed limit by statute, then Council has no power to vary that fee.

### Target **RECOVERY** (Note 2)

The level of cost recovery has been categorised as follows:

- a) Minimal cost recovery
- b) Partial cost recovery
- c) Full cost recovery
- d) Full cost plus overheads
- e) Nil cost recovery
- f) Set by statute
- g) Conditions of grant funding

### Fee Pricing

**Full cost recovery, partial cost recovery, minimal cost recovery** and **nil cost recovery** are all categories that have been assessed on the basis of the level of public good which is derived from the service and the level of benefit attributable to the receiver of the service. The level of pricing refers to situations where less than the full cost or reference pricing is recovered from the price charged for the service. It therefore implies the existence of subsidisation from other sources of revenue. Situations where less than the full cost pricing is involved includes:

- where benefits from the provision of a service accrue to the community as a whole, as well as the individual users;
- as a short term approach to stimulate demand for a service;

- where charging prices at full price may result in wide spread evasion; and
- where the service is targeted to a specific category of the community or users.

**Full cost recovery plus overheads (often referred to as Rate of Return Pricing)** refers to the direct and indirect costs involved in providing a service through the price charged for that service. Approached on a businesslike basis, the matching of prices to costs would be conducted frequently and any under-recovery of costs would lead to significant subsidies being funded from other sources of revenue. Full cost recovery would also include a component for opportunity cost of capital tied up in providing the service.

## Set By Statute

Certain fee pricing is set by State and Federal Government legislation. In an event of a new or amended statutory/regulatory fee being legislated subsequent to the adoption or printing of this document, Council has the right to apply these new charges without further notice.

**Conditions of grant funding** is a category of pricing, which restricts the level of fees that can be recovered for the service. Grant funding provided by the State and Federal Governments frequently establishes fee structures for the charging of services for which Council is the sponsor organisation of the particular service.

## Community Rooms – Deerubbin Centre

The community rooms in the Deerubbin Centre are available for hire or for free use. Hirers/Users are categorised as follows:

Group Category	Description Of Group / Individual	Subject To Hire Fee?
<b>A</b>	<p>Category A includes:</p> <ol style="list-style-type: none"> <li>1. Local political party entities whose members are volunteers and which do not charge attendees any entry fee, and</li> <li>2. Local Government Area (LGA) Community Groups.</li> </ol> <p>To be defined as an LGA - or Local Community Group, for the purposes of Hawkesbury City Council's fees and charges, and therefore be eligible for free use of community rooms <u>all of the following six criteria</u> must be met (supportive documentation may be required):-</p> <ol style="list-style-type: none"> <li>a) An organised, volunteer, membership-based group whose objective is to support or engage in activities of public interest and;</li> <li>b) Operates on a non-profit basis and;</li> <li>c) Is located within the Hawkesbury Local Government Area (LGA) or can provide documented evidence that at least 50% of their membership base resides in the Hawkesbury LGA and;</li> <li>d) Provides community or cultural benefits to the residents of the Hawkesbury LGA and;</li> <li>e) Charges no entry fee when using the community room/s and;</li> <li>f) Charges no fees for services rendered when using the community room/s.</li> </ol> <p><b>Notes:</b></p> <ul style="list-style-type: none"> <li>• Goods, which are hand made by the local community group members, such as art, craft and design and their associated publications, may be sold when Local Community Groups use community room/s.</li> <li>• Not all non profit organisations meet Category A criteria.</li> <li>• Category A excludes: consortiums or organised groups of businesses</li> </ul>	No

	where the primary purpose of coming together is to promote goods and services and develop for-profit activities.	
<b>B</b>	<p>Category B includes:-</p> <ol style="list-style-type: none"> <li>1. Non LGA community groups that are organised, volunteer and membership-based and operate on a non-profit basis.</li> <li>2. Self employed persons for the purpose of providing service to the community on a cost recovery basis only.</li> <li>3. Non profit organisations with reasonable means, for example lease of own facilities, or ownership of assets including money and property.</li> </ol>	Yes
<b>C</b>	<p>Category C includes:-</p> <ol style="list-style-type: none"> <li>1. Commercial, for profit businesses.</li> <li>2. Groups or organisations that distribute money that it makes to its members.</li> <li>3. Consortiums or organised groups of businesses where the primary purpose of coming together is to promote goods and services and develop for-profit activities, for example: product launches and demonstrations; luncheons; tradeshow; swap meets.</li> <li>4. Self employed persons for the purpose of providing services to the public for personal profit.</li> <li>5. State, Federal and Local Government (except Hawkesbury City Council) departments or agencies.</li> <li>6. Non Government Organisations operating under State, Federal and Local government auspices or funding arrangements.</li> <li>7. Non profit organisations with substantial means, for example ownership of assets or paid staff.</li> </ol>	Yes

Category A hirers have free use of the community rooms within the Deerubbin Centre. Category B and C hirers are subject to hire fees as outlined in the Fees and Charges.

## Goods and Services Tax (GST)

The New Tax System took effect from 1 July 2000. This package included the introduction of the Goods and Services Tax (GST).

Many Local Government services have been declared exempt from GST. Any services provided by Council that are subject to GST have had their prices adjusted in the attached Fees and Charges document.

In the event that the GST status of a particular good or service changes after the preparation of this document or during the 2011/2012 financial year, then the price of the good or service will be adjusted accordingly to reflect the correct GST status. If a fee that is shown as being subject to GST is subsequently proven not to be subject to GST, then that fee will be amended by reducing the GST to nil. Conversely if Council is advised that a fee, which is shown as being not subject to GST becomes subject to GST then the fee will be increased but only to the extent of the GST.

The following schedule of fees and charges has been prepared using the best available information in relation to the GST impact on the fees and charges at the time of publication.

## **GST Registration**

One of the requirements of the Federal Government's New Tax System is that enterprises be registered for GST and hold an Australian Business Number (ABN). Hawkesbury City Council has registered for GST. The ABN of Council is 54 659 038 834.

## **Kerbing and Guttering Contributions by Adjoining Owners**

The Act provides that recovery from the adjoining owner of a property may be made for up to 50% of the costs of the construction of kerbing and guttering. This is proposed for all future works, upon completion, with 50% of costs recovered for the adjoining front boundary and 25% of the costs recovered for the side boundary constructions on corner blocks.

## **Interest on Overdue Rates**

In accordance with Section 566 of the Local Government Act 1993, the interest rate charged on overdue rates and charges for 2011/2012 by Council, is set at the maximum permitted by the Minister for Local Government.

## **Interest on Overdue Sundry Debts**

Sundry Debts greater than 180 days incur interest charges at the same rate which is applicable to overdue rates.

## **Legal Charges**

Legal fees charged on applicable outstanding Rates and Charges are levied in accordance with the Schedule provided by NSW Courts.

## **Payment of Interest on Securities**

Upon application, interest is paid on security deposits due for refund. Interest payable is calculated at the equivalent rate achieved on investments less the administration charge.

## **Proposed Borrowings**

In accordance with Section 404(1) of the Local Government Act (LGA) 1993, Council is required to provide a statement of:

- The amounts of any proposed borrowings (other than internal borrowing);
- The sources from which they are proposed to be borrowed; and
- The means by which they are proposed to be secured.

At the time of preparation of this document it is not intended that Council will borrow funds. This situation may change if Council decides to borrow funds to cover additional capital expenditure.

The loans would be sourced from a major financial institution and secured by Council's income in accordance with Clause 23 of the Local Government Financial Management Regulation 2005 which requires that *"the repayment of money borrowed by a council (whether by way of overdraft or otherwise), and the payment of any interest on that money, is a charge on the income of the Council"*.

No provision for new borrowings has been included in the 2011/2012 Budget Estimates.
