

Residential Waste Service Options

2025/2026

Hawkesbury City Council provides a household waste collection service which is available to most residences within the Local Government Area. The waste collection service consists of the collection of a general (residual) garbage bin, a recycling bin and will include a mandatory 240 Litre fortnightly garden organics bin for selected urban areas. An additional garden organics bin can be organised for residents living in the urban areas for an additional \$140.25 p.a.

Due to the diverse needs of Hawkesbury residents, there is the potential to alter this service to accommodate household waste needs.

Sending waste to landfill from your garbage bin is expensive and increases significantly each year. The sustainable standard waste service should suit most households.

The table below outlines different services available to areas of the Hawkesbury depending on your location and includes the 2025/2026 domestic waste charges.

Please note: any commencement or change to a waste collection service must remain in place for a minimum of 12 months.

For further information, or to discuss your service, please contact Council on (02) 4560 4444 or visit Council's website [Bin Request](#).
