The Dementia Friendly Hawkesbury Plan has been developed with reference to feedback provided by:

- participants of the focus groups for people with dementia;
- participants of the focus groups for carers;
- all of the respondents to the community survey;
- local businesses, services and organisations
- Hawkesbury Dementia Working Group;
- Dementia Australia;
- Hawkesbury Access and Inclusion Advisory Committee

Council thanks the Dementia Working Group for their initiative and work developing this plan.

For questions relating to the Dementia Friendly Hawkesbury Plan, please contact:

Community Programs Coordinator Hawkesbury City Council P: 02 4560 4444 PO Box 146, Windsor NSW 2756

Executive Summary

Over the next 30 years, the prevalence of dementia in the Hawkesbury is due to increase 241% (*Alzheimer's Australia NSW and Deloitte Access Economics, August 2014*), exceeding the forecasted general population growth within the Hawkesbury of 49% (*NSW Department of Planning and Environment*) over the same period. Council recognises the need for a targeted response to develop a more inclusive and accessible community for people living with dementia who live, work or visit the Hawkesbury.

The Dementia Friendly Hawkesbury Plan aims to encourage and support organisations, businesses, community groups and individuals to make practical changes that will have a positive impact on the lives of people living with dementia and their carers. "A dementia-friendly community is a place where people living with dementia are supported to live a high quality of life with meaning, purpose and value" (*Dementia Australia*).

The nine priority areas in the Draft Plan are:

- 1. Empower people living with dementia and their carers to have a voice
- 2. Improve availability and access to information
- 3. Increase community awareness and understanding about dementia
- 4. Increase opportunities to engage and participate in the community
- 5. Increase support to maintain economic participation
- 6. Improve access to affordable and convenient transportation options
- 7. Improve access to appropriate health and care services for people to continue to live at home for as long as possible
- 8. Improve access, safety and inclusivity of public environments
- 9. Identify and promote dementia-friendly businesses and services

Dementia-Friendly Communities

What is a Dementia-Friendly community?

The majority of people with dementia live in the community. Often people feel socially isolated and wish they had more opportunities to interact with people in the community and to participate in social or other activities.

With the support of their employer, community, local businesses and organisations, neighbours, and friends and family members, people with dementia can continue to do many of the things they did before they received a diagnosis.

How does a Dementia-Friendly community benefit people with dementia?

Dementia-friendly communities encourage organisations, businesses, community groups and individuals to make practical changes that will have a positive impact on the lives of people living with dementia and their carers.

What does a Dementia-Friendly community look like?

- people are aware of and understand dementia
- people with dementia continue to be active participants in their own lives
- health staff are educated about dementia and treat people living with dementia with respect and empathy
- businesses provide accessible services to people with dementia, including having staff who understand dementia and know how to communicate effectively
- employers provide support for people living with the disabilities of dementia to continue with paid employment
- the physical environment enables people with dementia to get out and about safely
- social groups and organisations are welcoming and inclusive of members with dementia.

Definitions

Dementia

Dementia is the term used to describe the symptoms of a large group of illnesses which cause a progressive decline in a person's functioning. It is a broad term used to describe a loss of memory, intellect, rationality, social skills and physical functioning. There are many types of dementia including Alzheimer's disease, vascular dementia, frontal temporal dementia and Lewy body disease. Dementia can happen to anybody, but it is more common after the age of 65 (*Dementia Australia*).

Younger Onset Dementia

The term younger onset dementia is used to describe any form of dementia diagnosed in people under the age of 65 (*Dementia Australia*).

Carer

The definition for carer is someone who gives care and support to a relative or friend who:

- has disability
- has a mental health problem
- has a medical problem (including an ongoing problem or an illness that will end in death)
- is frail because they are old (known as 'frail aged')

Carer Recognition Act 2010 (Cth)

Policy Statement

Hawkesbury City Council is committed to the principles of a dementia-friendly community and implementing initiatives that engage the community, particularly people living with dementia and their carers. Council recognises that a dementia-friendly community contributes toward creating an accessible and inclusive community for all people with disabilities.

Council's Access and Inclusion Policy commits Council to work with the community to eliminate barriers which may prevent residents and visitors from participating fully in community and civic life. The Policy recognises that Council is in a position to influence and support community initiatives to improve access and inclusion within the Hawkesbury.

The Dementia Friendly Hawkesbury Plan commits Council to operate in accordance with Dementia Australia's principles for dementia-friendly communities being:

- people are aware of and understand dementia
- people with dementia continue to be active participants in their own lives
- health staff are educated about dementia and treat people living with dementia with respect and empathy
- businesses provide accessible services to people with dementia, including having staff who understand dementia and know how to communicate effectively
- employers provide support for people living with the disabilities of dementia to continue with paid employment
- the physical environment enables people with dementia to get out and about safely
- social groups and organisations are welcoming and inclusive of members with dementia

Key Facts, Statistics and Demographics

Dementia Statistics in Australia

- Dementia is the second leading cause of death of Australians contributing to 5.8% of all deaths in males and 11.3% of all deaths in females each year
- In 2016 dementia became the leading cause of death among Australian females. In 2017, dementia remained the first leading cause of death in females, and the third leading cause of death in males. Overall, accounting for 13,729 deaths
- In 2019, there is an estimated 447,115 Australians living with dementia
- Without a medical breakthrough, the number of people with dementia is expected to increase to an estimated 589,807 by 2028 and 1,076,129 by 2058
- Currently, an estimated 250 people are joining the population with dementia each day. The number of new cases of dementia is expected to increase to an estimated 318 people per day by 2025 and more than 650 people per day by 2056
- Three in 10 people over the age of 85 and almost one in 10 people over 65 have dementia
- In 2019, there are an estimated 27,247 people with younger onset dementia, expected to rise to 29,353 people by 2028 and 41,249 people by 2058
- An average of 36 people died per day where dementia was the underlying cause of death in 2016. Of the 13,126 people that lost their lives, 8,447 were female
- In 2019, it is estimated that almost 1.5 million people in Australia are involved in the care of someone living with dementia

Dementia Australia: Dementia Key Facts and statistics Factsheet April 2019

Dementia in the Hawkesbury

The prevalence of dementia in the Hawkesbury is estimated to grow 241% from 2016 to 2050 compared to 137% for the whole of NSW.

Hawkesbury LGA Dementia	2016	2017	2018	2019	2020	2050
prevalence projections	858	897	939	983	1029	2920

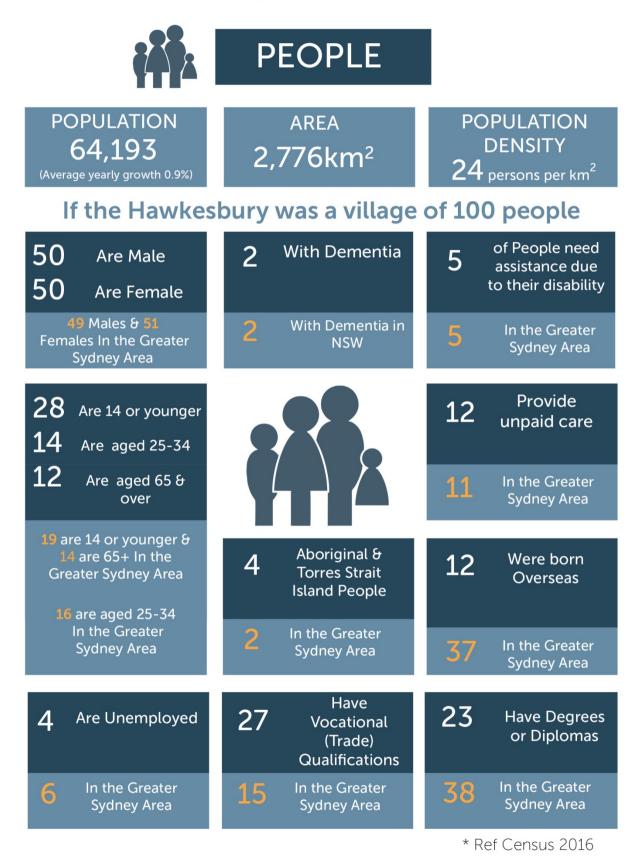

(Dementia Prevalence in NSW by State Electoral District. SED by Alpha Source: Alzheimer's Australia NSW and Deloitte Access Economics, August 2014)

It is estimated that the population of the Hawkesbury will increase by 49% from 2011 to 2051.

Hawkesbury LGA	2016	2021	2026	2031	2036	2041	2046	2051

(NSW Department of Planning and Environment: 2016 New South Wales State and Local Government Area Population and Household Projections, and Implied Dwelling Requirements)

Demographic Profile

Policy and Legislative Context

The Dementia Friendly Hawkesbury Plan is underpinned by the following international, national and state based legislation:

United Nations Convention on the Rights of Persons with Disabilities	The Convention on the Rights of Persons with Disabilities offers sufficient standards of protection for the civil, cultural, economic, political and social rights of persons with disabilities on the basis of inclusion, equality and non- discrimination. It makes clear that persons with disabilities are entitled to live independently in their communities, to make their own choices and to play an active role in society.
Disability Discrimination Act 1992 (Cth)	The Disability Discrimination Act 1992 makes it illegal for any person, business or authority to discriminate on the basis of a person's disability. The legislation ensures that people with a disability have the same opportunities to access employment, education, transport, accommodation and buildings as other members of the community who do not have a disability
The Disability Inclusion Act 2014 (NSW)	 The Disability Inclusion Act 2014 (NSW) provides the legislative framework to guide state and local government disability inclusion and access planning. The Act supports people with disabilities to access: the same human rights as other members of the community and that governments and communities have a responsibility to facilitate the exercise of those rights; independence and social and economic inclusion within the community; and choice and control in the pursuit of their goals and the planning and delivery of their supports and services
Anti-Discrimination Act 1977 (NSW)	The Anti-Discrimination Act 1977 prohibits racial, sexual and other types of discrimination and promotes equality of opportunity for all people. The Act covers discrimination in employment, education and other areas on the grounds of sex (including, breastfeeding and pregnancy), race (including colour, ethnicity and national identity), marital and domestic status, disability, homosexuality, age, transgender status and carers' responsibilities (in employment only).

Council's Dementia Working Group

In January 2019 Council convened a Dementia Working Group, a subcommittee of the Hawkesbury Access and Inclusion Advisory Committee. The objectives of the Working Group are to:

- 1. Develop a draft Dementia Friendly Hawkesbury Plan that includes all of Dementia Australia's minimum elements for endorsement, within the context of the Council's core business and Community Strategic Plan.
- 2. Establish a collaborative/consultative process for engaging people living with a diagnosis of dementia and their carers to inform the development of the Dementia Friendly Hawkesbury Plan.
- 3. Develop a timeline to guide development, launch and implementation of the Dementia Friendly Hawkesbury Plan, including consultation with Dementia Australia at such milestones.
- 4. Consider Dementia Friendly Hawkesbury Plan implementation issues to inform consultation with relevant community groups and stakeholders.
- 5. Design and present final draft of Dementia Friendly Hawkesbury Plan to be reported to the Hawkesbury Access and Inclusion Advisory Committee for the ultimate consideration of Council.

Developing the Dementia Friendly Hawkesbury Plan2019 - 2021

Council consulted with people living with dementia, their carers, community service providers, local businesses and Council staff about the challenges faced by people living with dementia and ideas to improve inclusion. Consultations conducted included:

- distribution of hard copy surveys;
- online survey available through Survey Monkey;
- one on one interviews;
- facilitated forums and;
- talks at local business forums and networking events;

Council also facilitated two Dementia-Friendly Information Sessions.

Full details of consultations are captured in Appendices B, C, D and E.

Council will implement the Plan over a two year period.

Council's Role and when it is likely to apply

The role that Council will play in the Dementia Friendly Hawkesbury Plan will vary for each of the strategies. Although the Plan was facilitated by Council, the Plan's vision is intended for the community and key stakeholders of the Hawkesbury, and is not just focused on activities of the Council. Whilst Council has a custodial role in the Plan, it is not wholly responsible for its implementation. Council will partner and support other stakeholders, as local businesses and community groups to deliver the long-term objectives of the plan. Council's role in delivering the Plan strategies is explained in the table below.

Manager/Leader

Council manages,	Where Council has direct responsibility and capability to deliver the
leads, delivers and	outcomes required. This will involve dedicated resources, agreed
communicates	timeframes and clear responsibilities. External funding or other resources
commitment, progress	may be required to make the project happen. In taking on this role, Council
and outcomes	also must be aware of the high level of community interest in outcomes, and
	needs to communicate its commitment to making it happen, the timeframe,
	progress and outcomes

Critical Partner

Council is an informed critical partner in the delivery of a project with mutual benefits for the partners Where Council has a direct responsibility to deliver the outcomes, and either partnerships are required in order to proceed, or the delivery of outcomes is enhanced by partnerships. Council needs to define its preferred position on outcomes, and enter the partnerships with the aim of value-adding and providing benefits for all parties

Advocate

Council develops an informed position and influences others who have the responsibility to make the decision and act Where Council does not have the resource or the direct responsibility to enact or make the decision. Council develops a position on the strategy/issue with a defined path forward and advocates to the responsible partners for the changes to occur. In this way, Council is part of developing the solutions rather than just presenting the issues

Supporter

Where a project is initiated externally to Council, Council provides low level assistance to enable the project to be realised

Facilitator

Council makes it easier, and builds the capacity of others to deliver Where others are responsible for the decisions, actions taken and outcomes, that align with the overall Community Strategic Plan, then Council might provide support by way of in-kind support or additional resourcing etc. The responsibilities and actions are those of the initiating party

Where Council develops the capacity of others (community groups, business groups, government agencies etc.), to find their own acceptable solutions. For example, several community groups may wish to run a community project: Council could facilitate by being a neutral third party to call meetings initially, perhaps assist sourcing funds from government; develop meeting or event processes etc. The responsibility for action and ownership of outcomes lies with the community groups, business groups or agencies

Objective One: Empower people living with dementia and their carers to have a voice

- Community satisfaction with the way council engages the community in making decisions
- Community satisfaction with Council lobbying state and Federal Government for funding and improved service levels
- Community satisfaction with Council building strong relationships and shared responsibilities

Actions	Councils Role	Section Responsible	CSP Strategy	Financial Year	Measures
Establish a Hawkesbury Dementia Working Group for the duration of the Dementia Friendly Hawkesbury Plan	Manager/ Leader	Community Services	2.5.2 5.4.1 5.5.2	2019/20	Working Group established
Identify and develop Dementia Champions across the Hawkesbury to advocate for the needs and interests of people with dementia	Critical Partner	Community Services	1.4.1 2.1.2	2019/20	Number of local Dementia Champions identified
Facilitate a forum for people with Dementia to meet with Government representatives to discuss identified issues	Advocate/ Facilitator	Community Services	1.4.1 2.4.1	2019/20	Forum held with various levels of government Number of participants in attendance
Promote rights of people with dementia through information sessions and Council social media platforms	Facilitator	Corporate Communications/ Community Services	2.3.1	2019/20	People with dementia and their carers are aware of their rights (session evaluation survey) Number of participants in attendance Number of public promotions undertaken

Objective Two: Improve availability and access to information

- Community satisfaction with access to information ٠
- Community satisfaction with Council's library services ٠
- ٠
- Community satisfaction with Council support of community and health services Community satisfaction with programs for people from diverse cultures (including Indigenous Australians) •

Appendix A: Dementia-Friendly Information Sessions

Dementia Friends

A Community Awareness Event

Are you interested in supporting people living with dementia in your community?

This free information session will provide an overview of the impact of dementia on the person and their families.

The session will also discuss what a Dementia Friendly Community looks like and how we can all take steps to become more Dementia Friendly.

An important start is for everyone in the community to become a Dementia Friend. Becoming a Dementia Friend is quick and easy and shows your support for people living with dementia and their families.

We can all make a difference.

Do you need respite to attend?

Please contact the Commonwealth Respite Centre on 1800 052 222 or your current service provider.

"Dementia-Friendly Communities is an Australian Government funded program administered by Dementia Australia"

When:25 June, 2019Where:Richmond Golf ClubWho:12 attendees

The Dementia-Friendly Communities seminar was facilitated by Anthony Parker from Dementia Australia. The Richmond Golf Club provided the training room for the event. 12 people attended the session in addition to the Councils' Dementia Working Group. Of the 12 attendees:

- all signed up as Dementia Friends at the session
- 8 people reported increased knowledge of dementia due to attending the session
- 4 people rated their knowledge the same as before, these people were all carers and/or health professionals.

Workshop Details

Date:	25/6/2019
Time:	5PM
Cost:	Free
Venue:	Richmond Golf Club 34 Bourke Street Richmond NSW 2753

Hawkesbury City Council Facebook

Since its creation, other initiatives of the Dementia Friendly Hawkesbury Working Group have included facilitating Dementia Australia's seminar on 'Dementia Friendly Communities' at Richmond Golf Club on 25 June as well as arranging surveys for people living with dementia and their carers, businesses, organisations and services.

Free dementia awareness forums have also been held in the past by Council as part of its ongoing plan to create a more accessible Hawkesbury for people with dementia, their carers and their families

The Dementia Friendly Hawkesbury Working Group currently meets every fortnight to discuss the development of the Dementia Friendly Plan with the aim of having a draft plan presented to Council in Dementia Awareness Month, which will be held September 2019.

Appendix C: Business Consultations

Business Week

When: 28/06/2019 – 01/08/2019	/hen:	28/06/2019 - 01/08/2019
-------------------------------	-------	-------------------------

Where: Available online using Survey Monkey and distributed in print Who: Surveys Distributed:

- 1. Bilpin Networking Event - June 24: 5 attendees
- 2. Colo – June 25: 4 attendees
- 3. Windsor – June 25: 18 attendees (approx.)
- Kurrajong Village June 24: 15 attendees (approx.) North Richmond June 26: 10 Attendees (approx.) 4.
- 5.
- 6. Trade Show – June 28: 13 stall holders (approx.)

Windsor Business Group

When:	25 July, 2019: 7am – 9am
Where:	Zazu Čafé, Windsor
Who:	30 attendees (approx.)

Surveys were distributed to the group with a 10 minute presentation and discussion on what a Dementia-Friendly Community might look like in the Hawkesbury. Several businesses completed surveys.

Hawkesbury Fest

When:	21 July, 2019: 10am – 3pm
-------	---------------------------

- Governor Philip Park, Windsor Where:
- 6-7K attendees (approx.), 35 Community Stalls, 25 Market Stalls, 12 Food Vendors Who:

Surveys were distributed and collected in talking with stall holders. Discussions on a Dementia-Friendly Community were had with several Hawkesbury residents and stall holders throughout the day.

Appendix D: Facilitated Conversation Events

Individual talks with Carers

Where:	Telephone Calls
Who:	3 carers

Comments/Suggestions	HDF Plan Objective
Public toilets are often closed and not accessible so people who are incontinent don't feel comfortable going out	8
Long waiting lists for lawns and cleaning support services	6
Dementia homes are too expensive	6
Directories need to be in print. We used to get a directory with our rates	2
Community transport is too expensive - \$15 for the bus and \$10 for the meal – can't afford \$25 every day to get out with support	7
Under the NDIS we are charged full fare	7
Community centres such as Bligh Park need air-conditioning – unbearable in the extreme cold and heat	8
We need a central point to talk with someone and get help from	6
Garden and maintenance services have a waiting list of 18 months and have closed their books	6
When my husband was diagnosed, he wouldn't talk and withdrew from people	2, 6
It starts off with the simple things that can be the hardest	2, 6
Its really important to have consistency with the support person	3
He became so reliant on me	2, 6
Person with dementia said he felt like things were slipping away	2, 6
Small things are frustrating for the person with dementia	2, 6
I am the carer for my mum and my husband thinking of selling our family home to downsize so that we can have more time for us	2, 6
We sought counselling which has been very helpful for all of us	2, 6
It's frustrating as there are some things that we should know, but we just don't	2
We have purchased an mCare watch to help with daily routines	2
Hospitals staff need to understand patients with dementia so much better and be respectful	3
Transport is a huge issue for us.	7
There is no appropriate respite for people with dementia under the age of 65	6
The RMS don't keep a record of Power of Attorney, so I have to remember to take the papers with me each time or that won't assist me.	2, 7
Places need to have simple signage	8

People living with dementia and their carers

When:	19 July, 2019: 10am – 12noon
Where:	Hawkesbury Leisure and Learning Centre
Who:	9 attendees

A conversational style feedback session was held for people living with dementia and their carers. Of the nine attendees, 3 people identified as living with dementia and one as a primary carer of a person living with dementia.

Comments/Suggestions	HDF Plan Objective
People are friendly and they make you feel safe	3
I like to go to the football and watch the Tigers	4
I like to come to the community centre	4
I play golf and I want a handicap of 7	4
I don't go out on my own	1, 3, 6, 8
I don't feel comfortable talking about dementia. When I go out, I feel like everyone is looking at me	1, 3
It's hard to explain to doctors and neurologists what my dementia is like	3
People treat me well	1, 3
I have to ask about things a couple of times	3
Carer: should not use long sentences. Use short phrases to help people follow and understand	3
Carer: I feel that all people should have some training in dementia awareness	3
Carer: people need to talk calmly and slowly	3
I have a great hair and nail salon.	9
Suggest everyone watch the 'do you see what I see' video	3
Men are in denial with dementia	6
Carer: I did the MOOC course. It was a good way to learn about dementia	3
Carer: Facebook support groups have been good. I don't use Facebook to talk about what I cooked for dinner, I'm there for support.	6
Difficulty as lots of people cannot use computers	1
The impact on carers means friends disappear as they feel uncomfortable	4
Needs to be more 1:1 talking to people making people aware.	3
Suggest a letter is sent to every business in the Hawkesbury	9
Government should look after carers as well – it's cheaper to look after someone at home rather than a nursing home	2
Pension is going down and utilities are going up	1
I want to be able to go to a restaurant and not need to explain everything to the people every time	3, 9
Training should be provided for up and coming students, especially hospital staff	3
A lot of people take dementia as a joke	3
People being locked in the hospital because they wander and the hospital staff thought it was funny until they realised it was my wife they were referring to	3, 8
Staff in dementia wards have no training.	3, 1
Care in hospital is not individual or provided on a personal basis	1
Hospital and community service have issues over jurisdictions. When a person with dementia goes in to hospital, the support workers that they are used to are not able to provide the support by a person that they are familiar with	1, 3
Home care nurses forced my mother to do things that she didn't want to do	1, 3
We didn't know what an advocate was or how to access one at the time	1
Health services didn't ever use an interpreter	1
I had to fight for my wife to receive her pension because she was younger and her dementia wasn't obvious. Then her pension was cut and we had to fight again.	1
Bowling at South Windsor is great. They have a quiet session where lights are left on, the music is off and the ramps are out. The staff are understanding.	4, 9
There are a lot of places that don't recognise the companion care – staff aren't trained on this	4

Comments/Suggestions	HDF Plan Objective
Cafes that have staff that are dementia aware are great. They often have quieter	3, 8, 9
spaces and they don't make people stand out.	
Meal sizes in the clubs are too big	1
Respite is hard to get.	1, 6
Carers are overwhelmed and burn out	6, 4, 1
Home care packages are limit and have large waiting lists. They are inflexible	1, 6
and the money runs out.	
Carers feel alienated	4, 6
Council rates are too much, there are no subsidies for people on a pension	2, 5
I sold everything to get by and it took 11 months to get on the carers pension	5
18 month wait for homecare packages	1, 6
People who need support access the NDIS and My Aged Care. The process is so hard. It needs to be made simpler for carers and people with dementia to understand.	1, 2, 4, 6
Face to face sessions to guide people through the process would help people through the service system	2
People can talk to providers about their experience and hope they can change the way they work	4, 1, 3
Not everyone uses computers	2
I have found that having a diary in my home helps. Like remembering to take my tablets	2
Have a day that people can come and talk to providers, learn about technology and look at things like monitoring devices. Examples of visual cue cards, diaries, continence aids and how to access funding. Have a continence nurse talk to people.	2
Maybe a client committee for the expo to help design it.	1, 2
We need to know about carers counselling services – grief counselling for carers and how to access their services	2, 6
I don't want to discuss my feelings with my kids	6
When my wife's needs changed, ACAT advised me that they cannot submit more than 2 assessments per month. It was so frustrating as things were changing so fast	1, 6
We need communication forum to help people know what is out there	1, 2, 4, 6
A booklet with information on what is available would be great and helpful	2, 6
The buses we use are rundown. They look like we are off to the funny farm.	7
Education is so important for everyone	3
Transport is really hard as it is so expensive. We need transport at a reasonable price	7
Family have been responsible for taking people out of aged care facilities. People hate it there	1, 4, 6
	1, 2, 6

Comments/Suggestions	HDF Plan Objective
Activ8 are great with Heart Moves and seniors classes	2, 4, 9
Outreach day programs are needed for people who live outside of Richmond and Windsor	2, 4, 6
Mobile library is great	2, 4

Businesses, Organisations and Service Providers

When:	19 July, 2019: 2pm – 4pm
Where:	Hawkesbury Leisure and Learning Centre
Who:	13 attendees

Attendees were split into three groups and were provided with an overview of the Hawkesbury Dementia-Friendly consultation process and the concept of a Dementia-Friendly Plan for the Hawkesbury.

	Social and Community	HDF Plan Objective
Strengths	Some specialty services available	2, 6
	Caring Community	4, 8, 9
	Service Providers & Health Care Services are educated.	3
	Strong Community Identity Highlight & Harness	3, 4
	Local Recognition by others in the area	4, 8
	Some support services available	2, 4, 6
	Community	2, 3, 4
Challenges	Need to provide more services to support carers ie music therapy.	2, 4, 9
	Cost of business to register for NDIS is not viable.	6
	Limit funding in aged care to provide external services.	1
	Being isolated from the Community and hard to break into the Community.	1, 4
	Outlying areas access to services	7
	Not enough services	1, 6, 4
	Isolation of carers	4
	Maintaining Social Networks	4, 6
	Long waits for in home Aged Care	1
	Complexity of Process	1, 2
	Stigma	3
Activities/	Carers only meeting and activities	2, 4
Suggestions	Connect through music therapy, food, carers and people together.	4
	Community Directory to access health carer, GP's & Nurses	2, 6
	Advisory Service to Health Care Navigator	1, 6
	Linkages to NDIS with younger onset dementia	3, 6
	Support & Create linkages for "Social Care Connectors" for "Compassionate Communities" Pilot Project" (Council & NBM PHN & participating general practices)	1
	Dementia carers support group.	2, 4, 6
	Online resources	2, 3
	Facebook support	4, 6
	Forums	1
	Tap into Existing Be & Co Network – Windsor Outside Library	2, 4, 6

	Economic	HDF Plan Objective
Strengths	Employers with flexible conditions	7
U	Community connections	4
Challenges	Cost of Services and lack of funding for services	1
U	High cost of services	1
	Job agencies and seeking meaningful employment.	7
	Safe workplace	7
	Individual	1, 2, 4
	Respite from daily duty.	7
	Carers having established work	7
	Carers payment	7
	Enough funding for respite	1, 2, 6
Activities	Community grants etc.	1, 9
/Suggestions	Pay it Forward type group to help in gardens, home etc.	2, 4
Juggestions	More Day Programs	1, 6
	Availability of Transport	7
	Free Social Programs	2, 4
	Support of volunteers to help run or assist with programs	4, 5
	Community service groups: Church, Youth, Scouts, Girl	2, 4, 6
	Guides, Help gardening etc.	
	Respite services to assist carers to work	4, 6, 7
	Educate Centrelink about early onset dementia	3
	Quality respite for carers.	1, 6
	Health	HDF Plan
	neaim	Objective
Strengths	Good Health Network	6
Challenges	High level of depression and dementia	6
0.1	Carer depression	4, 6
	Mental Health of carers and regular activities such as:	6
	Craft	
	Music	
	Understanding of Younger Onset Dementia	3
	Misinterpretation and Understanding	2, 6
	Educate religious and cultural organisations around dementia	3
	Hospitals are a nightmare	1, 3, 6, 8
	Training for staff in health services	3
	Bedside manner of medical staff	3
	Transport options when drivers licences are lost	4,7

	Health	HDF Plan Objective
Activities /Suggestions	 Regular activities in order to reduce depression, such as Craft Music Social 	4
	Combine therapies such as physio and music.	4, 6
	Stroke choir to help improve speech etc.	2, 4, 6
	Respite	6
	Carers Retreat asking business to contribute and bring in services such as: • Hairdresser • Beautician • Nail Person	4, 9
	Massage	4 6
	Peer support group for carers Early intervention cards or signs to look for to ensure correct dementia diagnosis and cognitive activities that may assist and slow effects of Dementia.	<u>4, 6</u> 4, 8
	 Develop apps or even 1 app that may assist. Seek assistance from PHD student or the like to develop: Reminders Links to PHN or their carers/activities Brain Games Fun Games Play Music Listen to e-books Advertises new information and updates on Dementia 	1, 2
	Psychologist support for carers	6
	Driving with Dementia education	2, 3, 7
	Dementia specific hospital wards	6
	Home	HDF Plan Objective
Strengths	Hawkesbury Community	4
	Existing Facilities	6
Challenges	Carers	2, 3, 6
	Mental Health	
	Physical Exhaustion	
	Support	
	Social Housing	5, 8
	Rental Market	5, 8
	Building Community around Aged Care	4, 6
Activities/ Suggestions	Therapy with Music Art and Craft Social Groups 	2, 4, 6, 9
	Co habituating with students	4
	Vacation care in Aged Care Facility	4
	NOTE "Innovaging" are innovators who are working in Aged Care space.	2, 3, 6, 9

	Safety/ Environment	HDF Plan Objective
Strengths	Connection & Community with the Hawkesbury	4, 6
	Community of faith	4
	Local Police	1, 4
	Close by	
	Mental Health Aware	
	Compassionate	
	Business have confidence in local Police	
	Heritage Footpaths	7
	Existing services and feeling safe	6, 7
Challenges	Mandatory Reporting not applicable in Community Aged Care	1
	Inform churches and other organisations. Dementia patients	3, 4
	may now have higher risks around tasks they have always	
	been comfortable doing. e.g. lighting candles at Church	
	Diverse community	4
	Lack of services and costs involved	6
	Awareness	3
Activities/	Dementia-friendly signage and way fairing around the town	7
Suggestions	centres. Coloured signs that can be followed	
	Dementia-Friendly Businesses or Place much like "Neighbour Watch" initiative.	2, 8, 9
	"Sit and Chat " chairs in the Parks, Shopping Centres and	4, 8
	other Open Spaces encouraging people to chat to the person	
	next to them.	
	"Dementia Bus"	4, 6, 7
	Dementia Australia accreditation for local businesses	9
	 Tips to improve living space: 	7
	Colour contrast	
	Noise	
	Strategies to assist:	3
	Showering	
	Re-orienteering	

	Empowerment	HDF Plan Objective
Strengths	People who want to make a difference	1, 4, 6, 9
-	Existing Dementia-Friendly program	3, 6
Challenges	Lack of understanding of rights	1
-	Community Grants applications are too complex it restricts the opportunity	9
	More men's activities	2, 4, 6
	Being treated with fear by others in the community	1, 3, 4, 9
	Interacting in the Community businesses	9
Activities/	Provide choices on everyday activities	2, 4, 6
Suggestions	Provide options in activities	2, 4, 6
	Community grants to be more accessible	9
	Simplify grant application processes	9
	Inform people of rights	1
	Knowledge of abuse rights	1
	Consultation for Dementia sufferers and their carers	1
	Do not treat Dementia sufferers any differently from others in the Community.	3
	Easy to follow signage, shopping centres and other Community space which will assist all ages of the community e.g. St Ives Shopping Centre; - Coloured signage - Non slip surfaces - Insulated for noise - Lots of seating	8
	Inform of volunteering opportunities or programs to be involved in	5
	People with Dementia network to share information	1
	ABC – Early onset segment	1, 3
	Raising awareness among businesses	9
	NOTE : Blue Mountains had trial with businesses to interact with people with disability. DARE Disability Services Springwood	9
	Community Directory that is accessible and simple to use	2, 3
	Referral Pathways are defined to access relevant support	2
	Future planning – wills, advance care and pensions	2, 6

	Education and Skills	HDF Plan Objective
Strengths	Existing Networks	2, 5
	Carer Support Groups	2, 4, 6
	Carers Coffee	2, 4, 6
	Local providers with local knowledge and education	2, 6
	Existing resources for carers	2, 3, 4, 6
Challenges	Need for carers to be educated in what to expect with the progression of Dementia	1, 2, 3, 4, 6
	How to have business allocate finance and time to "MAKE IT HAPPEN"	9
	More education and skills	2, 3, 4, 5 3
	Training for staff in front line situations like the reception at Doctors surgery, around Dementia	3
	Education into remote areas	3
	Supporting organisations to keep people involved	1, 6, 9
	Keep existing networks	6
	Rotary, Probus and other organisations	2, 4
	Disseminating or sharing information	6
Activities/	Businesses becoming aware of alternative responses	2, 5, 6, 9
Suggestions	Workshop on "How To" courses for access to services and	2, 3, 8
	overcome previous barriers	
	Promote more training	3
	Availability of carer support groups online and face to face.	2, 4, 6
	Community funding made available	6, 9
	Self-education	3
	Navigation support on internet	1, 2, 3
	Council free on line coursers and tools	1, 2, 3
	Booklet	2
	Hospitality Staff Training as well as raising their tolerance and knowledge	3, 9
	"Silent" od Dementia focused day	2, 3
	Bringing local Dementia groups together to arrange a trial run	3, 9
	for local business to expose their staff to Dementia patients.	
	Promote and spread to be national campaign and training tool.	
	Tap into existing trusted services	2, 3, 4, 6
	Hub or central network to access information for Dementia	2, 3, 4, 6
	Trusted and Accessible	2, 4, 6
	Dementia Aware providers	3, 6, 9
	Easy access to information and resources	2, 4, 6

Ś

Hawkesbury Carer Support Group

Ś

When:	26 July, 2019: 10am – 11am
Where:	Anglicare Education Precinct, Richmond
Who:	4 attendees

Comments/Suggestions	HDF Plan Objective
Frustrated with continence aid supplier ceasing to stock our product. I don't know	2, 6
where else to get the one that he will wear	-
I don't have the internet, so I can't look things up. I learnt about Anglicare's	1, 2, 4, 6
services from the hospital referral	
People with dementia don't look like there's anything wrong with them	3
I have to shower mum, so I regulate her routines	3
Routines and prompting are essential to support him each day	3, 4
Mum has been having dreams about dying	3, 6
My biggest worry is who will care for him if I can't	2, 4, 6
Mum is not suitable for the day program because it's too loud for her. She doesn't	3, 6, 9
relax	
Mum goes out to a friend's place once per week	4
Shop keeper are ignorant to what it means to have dementia	3, 9
As a carer, I have made a lot of new friends through networking and coming to	3, 9 2, 4
carer groups	
We had a really good cabdriver in the Hawkesbury once. He was calm and patient.	2, 4, 9
I don't know how to contact him now.	
People are scared of people with dementia and make assumptions about it	3
I have never heard my mum say she has dementia. She just says 'I'll be in the nut	1, 3, 6
house soon'	
I'm in the process of getting a new bathroom, getting quote because the waitlist for	1, 6
services to do it is too long	
We like to use local providers however their books are closed e.g. Peppercorn	1, 6, 7, 9
It was hard because mum wouldn't sleep in a bed	3, 4, 6, 8
If I am not happy with services, I don't like to tell them	1
Coming to this group was the best thing because of the friends that I have made	2, 4, 6
I would like to better understand how to access private services	2, 6
People tend not to look at or talk to my husband when we are out in public – they talk to me.	3, 9
Its good just to have that person [service provider] to talk to	2, 4, 6
GP's don't know enough. They make assumptions "he's just getting old' when I	3, 6
was trying to explain the changes that I had noticed	,
Scared to acknowledge dementia	3
Respite is hard to get in the Hawkesbury, had to use respite in Bathurst	1, 2, 6
It was hard when he was diagnosed as we didn't know anyone who was or had	2, 4, 6
gone through this	
Lots of fear in using respite	3, 6
Had to go to Katoomba for a dementia specific [respite] bed	1, 2, 6
We need a home for people living with dementia	1, 2, 4, 6
Meals and nurses were fantastic at Hawkesbury Living	2, 4, 6
My husband has passed now, but I'm still confused by the whole thing	2, 4, 6
Anglicare are about to get the EDIE program [Educational Dementia Immersive Experience]	2, 3, 6
Everyone with dementia is different and they experience it differently	3
Being told by the doctors that I needed to put him in a nursing home – I wasn't ready for that.	1, 2, 3, 4, 6

Survey Responses: people living with dementia or a carer of a person with dementia

Hawkesbury City Council surveyed 23 residents regarding their experience of living with dementia or being a carer for a person with Dementia.

The respondents surveyed indicated:

- 55% men and 45% women completed the survey
- 39% live within the rural areas and 61% in residential areas of the Hawkesbury
- 74% were carers completing the survey on behalf of the person living with dementia and 9% were completed by a person living Dementia
- 30% of respondents were under the age of 60
- 20% non-Australian
- 55% of people living with dementia live with family or living with a Carer.

The survey data showed:

- 45% of people go out most days and their main outings are shopping, attending medical and health care appointments and going to cafes and restaurants
- 73% of residents advised that support from family and friends is the greatest assistance when doing things around the community
- 57% people advised that feeling welcome also assists them when out and about in the community
- 50% of people find that difficulty with physical mobility makes it more difficult for them to do things in the community
- 45% of people have concerns around becoming confused or being a burden to others
- 65% of people advised that they wish they had more social contact with people in the community.

What do you think could be done to make the Hawkesbury a more dementia-friendly community?				
Comments/Suggestions	HDF Plan Objective			
Richmond / Windsor needs to have a specific centre established. Currently the centre that my spouse attends has to be set up daily for the group as it is a shared facility.	2, 4, 6			
Educate people on dementia and make them familiar with the disease so they can feel more at ease with the people living with dementia. Especially also around helping out with supports for carers and families. Offer more events that specifically include also younger onset dementia sufferers, who are still in the age of working life.	2, 3, 4, 5			
People need to understand the disease more. I may not be able to work out change or how to use my card, or even directions to a place. But i can still do things and I am not stupid.	1, 3			
Knowledge and acceptance by the community that this can and is a young persons disease also	3			
Unsure as my mum won't go anywhere	8			
More respite rooms available for carers and their husband/wife	2, 6			
The wider community needs to be educated to understand that dementia affects young people (ie under 65 yrs) as well as older people AND that the diagnosis often comes a long time before we become bed bound and non-communicative. So, because of this people with dementia are often struggling with communication and simple tasks on a busy world where speech is fast, patience lacking and it feels like too much is happening even in relatively quiet places. If services and shops etc could be understanding that and go/speak slower, have quiet spaces for those who need it, and signage was simpler (less decorative so letters could be identified) it would help a lot	2, 3, 9			
Education on dementia including workshops for carers	3			
More public awareness of dementia & its affects	3, 2			
Can't think	1			
More care providers and support for all, especially those without family close by.	2, 4, 6			
Awareness for customer service staff of how to recognise and deal with customers with dementia.	3			
Support when I get confused Do things during the day not night.	2, 4, 6, 9			
After hours support	4			
Education on dementia and the need for patience when dealing with them. They take a long time to analyse and make decisions when they are out, even making payment confuses them.	3, 8			
More Awareness	3			
Make the Community more Dementia-Friendly	1, 2, 3, 4, 5, 6, 7, 8, 9			

Survey Responses: businesses, organisations and service providers

Hawkesbury City Council surveyed 51 businesses and organisations regarding their experience of working with and interacting with people with dementia.

The respondents surveyed indicated:

- 75% of businesses advised that they operate across the entire Hawkesbury LGA
- 17% of businesses were retail and 62% were Family, Child, Aged and Disability care services
- 78 % of business identified that they have customers with dementia
- 86% advising that their business would benefit if they support people with dementia
- 48% of businesses feel their staff don't know how to support and communicate with someone with dementia
- 51% of businesses did not know where to go for resources to train their staff in supporting people with dementia
- 75% of businesses would consider learning how to better assist people with dementia, and 25% advised that they had already done so (No respondents said they would not consider learning how to better assist people with dementia)
- 82% of businesses would consider reviewing the physical environment and involving people with dementia in these changes

-

Organise free sessions, workshops or support group for people with dementia

Comments/Suggestions	HDF Plan Objective
Advertise more	2
Area for them to be together in a safe activity based environment	6, 8
This has given me the idea of proving entertainment for people with dementia	2, 4, 9
Community Education, understanding how to access services and help when it is needed	2, 3
Access to animals as therapy	2, 4, 6
Assist the community by providing information to who come into the centre Advertise information in the Gazette Information and flyers	2
Consider all areas where carers require more assistance to meet the needs for carer and care recipient	2, 4, 5, 6, 7, 8, 9
More information for the community of available resources, advertising	2
I honestly don't know, except more understanding	3
More support services such as community social groups and respite services for carers.	4, 6
Increased community awareness - give people the skills of what to do. Reduce people's fear of getting it wrong.	2, 3
Provide hands on support at the coal face	4, 6
Making people aware that dementia patients still have something to offer.	3
Have people with the condition wear a "I am trying to live with a condition named Dementia" (personal experience of course tells me they may forget to put it on - perhaps they could wear a permanent bracelet). Easily identifiable by the public, in conjunction with a campaign of awareness. Have general public wear the badge to offer they are aware. We recognise visually impaired because they have either a guide dog or a cane we're offered their condition by a 'symbol'	3
More awareness and supporting a central hub for dementia services (something raised by Dr Ravi in the past).	2, 3, 5, 6, 8, 9
Raised awareness within the business and general community about living with dementia and how it can impact a person, how to respond and communicate. Advertised dementia safe spaces - cafes, businesses, transport, shops, social settings.	2, 3, 9
Just lots of education and information	3
