

# Hawkesbury Community Nursery

The Hawkesbury Community Nursery is a predominately volunteer run Nursery that propagates Hawkesbury Indigenous plant species.

The facilities at the Nursery include a polyhouse, potting shed, shade houses, outdoor plant storage areas, native seed storage bank, as well as a community building.

Members of the public are welcome to take advantage of these facilities to learn about propagating local native plants. Propagated plants can be used for the purposes of landscaping, erosion prevention, native animal habitat or bushland restoration projects. Plants can be purchased from the Nursery during opening hours however if you require a bulk purchase it is suggested that you order prior to the date required.

To register and arrange access to the Nursery please phone Council's Bushcare Officer on (02) 4560 4525.

Located at 10 Mulgrave Road, Mulgrave, next to the Companion Animal Shelter, the Hawkesbury Community Nursery is open to the public weekly on Wednesdays from 9am to 1pm or by appointment.

## Hawkesbury Bushcare - Why not join us!

Supported by Hawkesbury City Council, Bushcare is a program run for environmental volunteers to undertake bush regeneration in the local area. Activities carried out by volunteers include weed removal or control, tree planting, propagation of native seed, seed collection, rubbish removal and native animal habitat restoration and plant identification.

To get involved in Hawkesbury Bushcare please contact Council's Bushcare Officer on (02) 4560 4525 or email [council@hawkesbury.nsw.gov.au](mailto:council@hawkesbury.nsw.gov.au)
